

Press release

PO2N Group, the IBMA Association, UPVD and Qualimediterranee cluster are pleased to inform you of a conference on

Natural Products and Biocontrol

from 19 to 21 September 2012 in Perpignan (France)

The congress is opened to scientists, technicians, industrials whose research is centred on biocontrol and natural products.

The style of the event will be open conferences, scientific presentations (oral or posters), BtoB meeting or discussions.

The main topics will be:

- Chemical characterization
- Identification of biological targets
- Microbial metabolites
- Plants extracts
- Natural products as defence elicitors
- Secondary metabolites used as activity biomarkers
- Compounds of marine origin
- Secondary metabolites and interactions

To register, submit abstracts of your communication and find all relevant information

www.biocontrol2012.com

Option for online payment directly on the website

For more informations : contact@biocontrol2012.com

Hoping to welcoming you in Perpignan in September 2012.

Sincerely

The organizing committee.
