

5th SUD Symposium: Unlocking the IPM triangle - Using Green tools 1st

Date: 7/02/2017

From 15.00 to 18.00 in the European Parliament

Hosted by: Pavel Poc, member of the European Parliament

Simultaneous interpretation: EN, IT

Exhibition: Interviews of grape growers + IPM working with nature

14.15 – 15.00 Coffee offered before the conference

15.00-15.10 Welcome by **Michael Hamell**, Professor of Agriculture, University College Dublin (chair and moderator) together with our host **Pavel Poc**

15.10-15.25 Keynote Speech

How sustainable grape growing can contribute to local development by **Cristina Micheloni**, Agronomist of the Italian Association of Organic Agriculture (AIAB) and **Ruggero Mazzilli**, SPEVIS (tbc)

15.25-16.20 EU policies encouraging sustainable wine growing

- *Specific targets in French ecophyto for wine*, by **TBC**, French Ministry for Agriculture
- *Rural development funding for biological control agents to fight pests on grapes in Luxembourg* by **Pierre Treinen**, General Director in Ministry of agriculture and viticulture
- *Specific measures from the EU Sustainable Agriculture Working Group implementation plan* by **TBC**
- *Short statements* from **Vittorio Veronelli** -IBMA- and **Francois Veillerette** -PAN Europe-

Debate with **Ladislav Miko**, Deputy Director General DG Santé, European Commission, **Rudolf Moegele** Deputy Director General DG AGRI (tbc), European Commission also participating **Member State representatives** (tbc)

16.20-16.50 What is sustainable wine growing

- *IPM in grapes: science meets the challenge - Presentation of the grape posters (Insects and Pathogens)* by **Carlo Duso**, IOBC-wprs
- *Make biodiversity in grape growing work for farmers* by **Kerstin Frohle**, Bodensee Stiftung the European Partnership for Biodiversity Protection in Viticulture
- *Functional biodiversity in European wine growing* by **Cristina Carlos**, Association for the Development of Sustainable wine growing (ADVID)

16.50-17.50 When companies are engaging in sustainable wine growing

- *Taking a chance in the market* by **Ivo Nardi**, Perlage Conegliano Veneto
- *Insect Pest management in grape vines thanks to biocontrol* by **TBC**
- *Environmental and socio-economic benefits of establishing a green business* by **Martin Suchanek**, Biopreparaty

Debate with respondent **Herbert Dorfman**, **Marco Zullo**, **Eric Andrieu** (tbc) **Jasenko Selimovic** (tbc), **Ivan Jakovic** (tbc), **Florent Marcellesi** (tbc), **Franco Bogovic** (tbc), members of the European Parliament, members of the European Parliament.

17.50 Conclusion by **Michael Hamell**

18.00 End of conference

18.00 – 19.00 Cocktail with wine tasting

Who are we? An innovative partnership consisting of:

IOBC/WPRS is an International Organisation of progressive European researchers and other knowledgeable people investigating the use of sustainable, environmentally safe, economically feasible, socially acceptable control methods of pests and diseases of agricultural crops. IOBC/WPRS fosters research and practical application, training and information exchange, especially of all methods including biological control as part of integrated pest management. IOBC/WPRS produces guidelines for integrated production of agricultural crops, collaborates with different stakeholders to develop sustainable agricultural production systems and standardises methods of testing effects of pesticides on beneficial species, with the aim to foster biodiversity and ecological services as a natural resource.

IBMA is the association of biocontrol industries producing solutions: microorganisms, macroorganisms, semiochemicals and natural products for plant protection. Based on long years of intensive research and development, the "Biocontrol industry" is now growing fast and can offer safe and cost-effective solutions to the entire food chain. IBMA was created in 1995 to represent the views of the developing biological control manufacturers, which are mainly SME's with limited resources, research organisations, extension services, consultants, distributors, contributing to the development of biocontrol and participating in IBMA activities.

PAN Europe is an NGO working to minimise negative effects and replace the use of hazardous chemicals with ecologically sound alternatives. Our network brings together public health, and environmental organisations and women's groups from across 19 European countries. We work to eliminate dependency on chemical pesticides and to support safe sustainable pest control methods.

PAN Europe gratefully acknowledges the financial support from the European Union, European Commission, DG Environment, Life+ programme. Sole responsibility for this event lies with the authors and the funders are not responsible for any use that may be made of the information contained herein.
