

IBMA elected Sylvia Plak president, beginning in 2019, succeeding Willem Ravensberg. Plak currently serves as Registration and Regulatory Affairs Director for Sumitomo Agro Europe. In her vision for her new role with IBMA, Plak observed that agriculture is undergoing a new revolution with new techniques and technologies together with new crops, varieties and tools, and the presidency of IBMA will allow her to represent the industry supporting these changes. Plak has been leading regulatory and development teams within Sumitomo Agro Europe including a significantly growing biocontrol market.
