

IBMA announced on October 11 that three shortlisted products for the Bernard Blum Award are those from **Fyto Fend, Marrone Bio Innovations, and Plant Health Products**. IBMA will award a trophy, interview and product placement in New Ag International and 2BMonthly publications, as well as complimentary registration for ABIM 2018 and the three shortlisted finalists will have a poster to display their innovations at ABIM 2018, the premier global biocontrol industry event that will take place in Basel 22-24 October.
